

COIN Budget Request Subsystem Status
11/24/2004

The following screens are not available for testing:

- 1) **Record Workload Information.** We anticipate these programs will be available for your use on 11/29/04.

Problems have been reported with the following screens:

- 1) A problem with the 'Salary Amount Requested' on the Permanent Personnel screen has been reported. If the salary was reduced to below the minimum of the pay band (salary reduction due to budget cuts) the system was returning an error. Problem was resolved on 11/23/2004.
- 2) Some users receiving a system abend message when entering 'MAIN'. Problem due to lack of system threads. Ticket was logged with VITA on 11/19/04 to increase the number of threads.
- 3) The Budget Check-list for the Commissioners of the Revenue inadvertently refers to the 'Treasurers Career Development Program' instead of the 'Commissioners of the Revenue Career Development Program'.
- 4) Security Issue (abend) encountered when accessing the COIN Budget Request Menu from the COIN Main Menu. Problem was resolved on 11/17/04.
